

# Producer-Consumer Cooperation Towards A Sustainable Global LNG Market

**Wan Zulkiflee**  
President and Group Chief Executive Officer, PETRONAS  
8<sup>th</sup> LNG Producer-Consumer Conference 2019

Thursday | 26 September 2019 | Grand Prince Hotel New Takanawa, Tokyo

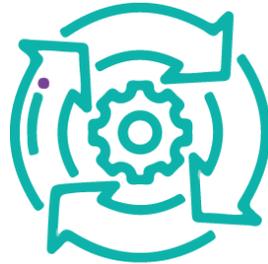

# The world today has never been more complex

One thing remains certain...

## The world aspires for a low carbon future

# 3 Key Areas for Collaboration

## Gas advocacy and new demand creation

Fit-for-purpose solutions to meet market demands toward low carbon economy.

## Partnerships across the value chain

Increased interaction amongst all stakeholders will facilitate the harmonisation of standards and regulations for LNG.

## Advance technologies toward GHG emissions reduction

Viable and cost effective approaches to reduce GHG emissions with support from financial institutions.

Are we truly cooperating and investing in LNG for long-term energy security and environmental sustainability?

---

How do we incentivize stakeholders in the industry NOT to think and act for short-term economic gains?

# A Trusted LNG Partner

**3<sup>rd</sup>**

**Largest LNG producer in the world**

**1<sup>st</sup>**

**Floating LNG owner-operator in the world**

**130<sup>tcf</sup>**

**Global gas resources (2P+2C) and growing**

**LNG Bunkering**

**Virtual Pipeline System**

**Small Scale Break-Bulking**

**LNG for Transportation**

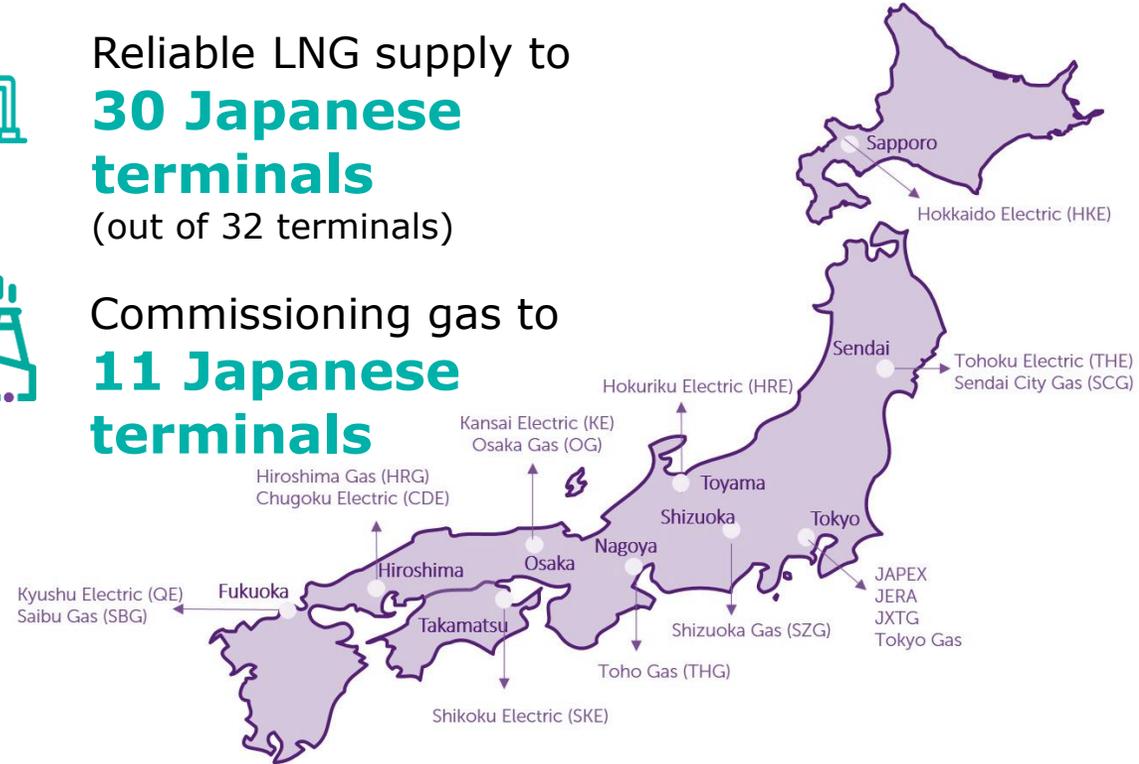

**8,751 cargoes delivered to Japan**

Reliable LNG supply to **30 Japanese terminals** (out of 32 terminals)

Commissioning gas to **11 Japanese terminals**

**PETRONAS**

**A progressive energy and solutions partner enriching lives for a sustainable future**

Thank you
